

## Technical Specs

Marking area	80mm(X) x 20mm(Y)
Standard cable length	3M
Head dimensions	168(W) x 81(D) x 212(H)
Head weight	2.2kg

## Accessories

# MB8020T

The ideal balance of portability and a medium-sized marking area.

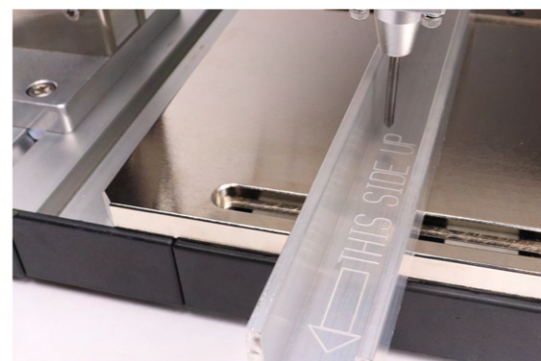

While maintaining portability, it features a marking area of about 2.5 times larger than MB3315T, allowing for more information to be marked at once.

This makes it ideal for marking vehicle identification numbers and similar identification markings, while the wide marking area enhances traceability options.

## Workpiece Sample

Arc marking on plastic parts using a 60° pin.

Marking inside concave parts using a long pin.

Marking on the edge of the plated steel.
